High-Performance Notebook Memory

HMD Electronics AG

hynix Authorized Distributor

Maximize performance and productivity with Hynix SO-DIMM memory

Hynix SODIMM modules are designed for laptop and notebook systems that have restrictions in terms of space and heat dissipation. All modules are manufactured and tested under stringent conditions to ensure high levels of reliability, stability and performance in meeting today's demanding applications. Hynix SO-DIMMs are designed to increase productivity and help your Notebook work faster. Hynix SO-DIMMs are fully qualified and used in all major OEM Notebooks in the market such as: Acer®, Apple®, Dell®, HP® and Lenovo®. Hynix is therefore the optimal partner to use for your white notebook integration and for upgrading all notebooks. Particularly the Hynix DDR3 SO-DIMM modules are perfect for the latest Apple® notebook range.

DDR3 1066/1333MHz Unbuffered Non-ECC SODIMM validation results

Speed	Module Density	Latency-CL	Qualified Memory	Memory Under Qualification
DDR3-1066	1GB	7-7-7	HMT112S6AFP6C-G7N0	HMT112S6BFR6C-G7N0
	2GB		HMT125S6AFP8C-G7N0	HMT125S6BFR8C-G7N0
	4GB		HMT451S6MMR8C-G7N0	HMT451S6AFR8C-G7N0 (Q3 09)
DDR3-1333	1GB	9-9-9	-	HMT112S6BFR6C-H9N0
	2GB		-	HMT125S6BFR8C-H9N0
	4GB		-	HMT451S6AFR8C-H9N0 (Q3 09)

Product Lineup

DDR1 – 333/400
Pin: 200

DDR2 – 667/800
Pin: 200

DDR3 – 1066/1333
Pin: 204
